TALENT ENRICHMENT CLASSES

Welcome to the Talent Enrichment portion of the WACTC Adult Education website. Most of the WACTC website has been dedicated to the insomniacs of Western Pennsylvania. If it can't put you to sleep, nothing will!

The Talent Enrichment Classes are different. We've decided to make learning something fun again. The Talent Enrichment Classes are short term. They're convenient. Plenty of free parking. They focus on a specific skill or talent and stress hands-on instruction. The instructors are top notch, but there aren't any fancy diplomas or certificates at the end. Just the satisfaction of knowing how to do something that you didn't know how to do three or four short weeks ago. And the best part is that they're inexpensive.

Most of you, who have gotten this far, have already seen our TEC (Talent Enrichment Classes) catalog with over 30 different offerings and more to come. If something has struck your fancy, please complete the short interest form with your name and contact information along with the course you are interested in and forward it to our Adult Education Coordinator at ddull@wactc.net. As soon as we have at least six (6) like-minded people, we'll begin the class. It's just that simple.

If you're one of the few that haven't seen our TEC catalog and you happened to stumble on this page before the Melatonin kicked in, I say fantastic! Thanks for joining us. I'd like to help get you up and out of the house to try new things. And I can, if you will forward me your contact information (ddull@wactc.net). I can either email you an electronic copy of the catalog or I can send you our 1970's version in the mail.

Either way, the Talent Enrichment Classes are a great way to meet new people, make new friends and learn a skill for personal enrichment or to explore a new career without the formal commitment of years of schooling and expensive student loans.

By the way, if nothing in the catalog is of interest to you right now, stop back again or look for new editions of the TEC catalog where sophisticated people go to meet. Grocery stores, Libraries, Senior Centers, Doctor's Offices, you get the picture! We gladly accept new ideas and are open to changing the catalog offerings to meet the community needs.
