Welding instructor

Job Description

Welding Instructor (CIP 48.0508) Full-Time. The position includes delivering instruction to high school-age students using the Program of Study Task Grid for Welding

Candidate must have the following qualifications:

- 4+ years of wage-earning experience in the Welding field.
- Candidate must have good verbal and written communication skills and the ability to manage and motivate high school students.
- Successful candidate must complete PDE required college coursework and certification process if not already certified.
- Clearances for Acts 34, 151, and 114 will be required before hiring.

Duties and Responsibilities:

- Provide quality occupational instruction to secondary career and technical students to prepare them for a successful career path in Welding.
- Duties include program development and modifying curriculum to remain current and effective instruction and supervision of all students.
- Build professional relationships with local business and industry partners to establish potential student work sites.
- Maintain appropriate professional certificates and licenses as required.
- Willingness to pursue teaching certification and professional development activities to enhance the program and self.
- Possess excellent communication skills.

Salary: Based on the teacher's contract scale

Deadline: Until the position is filled

Reports To: Executive Director/Principal
